Specialty Program

Ms. Harrison met with Kelly Brown, Supervisor of Specialty Programs. There is a process for creating a new specialty program that is open for transfer students. It is a 2-year process:

Year 1 – January 2025 – Submit Proposal

Year 2 – Fall 2025 – Advertise and Collect Applications

2026-27 School Year – Transfer Students Begin

There were specialty program meetings held over the weekend to work on the proposal. The proposal was shared out and input was welcomed. It was also shared how to be more involved with the proposal if anyone wanted to be. The committee is on track to get the proposal submitted by the due date in January.

Next Meeting: Tuesday, January 21, 2025
